REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent Claim 16 teaches the limitations "a display manager registering at least two network devices connected to said network through a bi-directional communication process and subsequently receiving messages for display on the display device from said at least two network devices." in combination with the dependent claims 17, 19-21, 24-33, 36.

The prior art does not teach the cited limitation.

The Stuempfle reference teaches vehicle control system in a distributed network. The Davidson reference teaches priority queue and display manager. The Ishibashi reference teaches a vehicle operating system with priorities on messages by device control. No prior art reference of record implements or suggests all the limitations of the claimed limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
